Space Aces Back

MOSCOW (AP) - Two Soviet cosmonauts returned safely to earth inside their spaceship Friday after proving man can leave an orbiting satellite, float in space and perhaps some day build space stations for interplanetary travel.

Both were reported well.

A delay of nearly five hours In announcing their landing after 26 hours aloft and an unusual site for returning the satellite to earth cast the only shadow over their historic flight. A West German observatory detected possible landing trouble from radio signals. But official Soviet announce-

Socred's 'Greatest Victory'

Premier Jubilant

It is "Social credit's greatest victory," chortled a beaming Premier Bennett Friday after the legislature approved third reading of his mini-medicare bill.

Opposition members hammered away at the government for almost four hours as the bill was approved section by section.

At one point a hated night

the premier announced he was prepared "to sit here all night" if necessary. But tempers cooled and

shortly before 6 p.m. a vote

B.C. MAY INSURE HEALTH OF SOME

By IAN STREET

Premier Bennett indicated Friday that the government may set up its own health insurance organization to provide coverage to lower income groups in B.C. under mini-medicare.

This could come about if no private company will provide the coverage at suitable rates.

The indication that this was under consideration came during more than three hours of noisy and often angry debate which led to third and final reading of the government's medical grants bill in the legis-

Question of Costs

ONE OF THE important points which does not seem to have been adequately stressed in the bilingual and bicultural commission hearings is the expense, delay and confusion inevitably created by any counwhich has to be prepared to do all its oral and written work in two languages.

The delay in Parliament over the pensions bill because all the available information is not available in the two official languages could seriously set back the whole plan. Yet under the constitution and without any change in the existing bilingualism practice this is quite in order.

In an institution which for many years has been geared to doing things both in English and French t is surprising that this lapse was allowed to occur. It probably indicates that the Quebec pressure is so great that the government's translation staffs are quite inadequate for what appears to be an ever-

If as Quebec seeks, the bilingual obligation is extended from governmental to all other affairs, the cost to the country could be terrifying.

Most companies, and particularly those doing part of their business in Quebec are now forced to use the two languages. This involves double printing costs, in many cases duplication of staff. For the companies faced with this necessity there

is nothing to win-only something to lose if they incur French Canadian displeasure. Although west of Winnipeg French is practically

an unused language, there is pressure being applied on governments, institutions, business and industry in those parts to accept bilingualism as a duty to Canada. The "Bi and Bi" royal commission advocates that the CBC should schedule programs in French

for a period every day, even where no French is spoken. It may later be suggested that newspapers in the interests of unity should use the written word in French in at least part of their publications.

Ideologically few will disagree that Canada's peculiar position makes it desirable that the French tongue should be recognized, but economically it is a burden which can hardly in many cases be justified by those Canadian companies striving to remain competitive with rivals who have no such language problems to boost their costs.

Race for Space

THE SOVIET UNION has once again dramatically demonstrated its present superiority over other nations in the conquest of the outer universe.

Today the world is one in praising the courage of Lt.-Col. Alexei Leonov for his incredible walk in space 300 miles above the earth and the technical knowledge of the Russian scientists and engineers who enabled him to accomplish his historic feat.

The latest Russian achievement marks an important step forward in the exploration of man's ability to cope with and function freely in outer space which will undoubtedly lead to further exciting developments in the near future.

Less spectacular than the recent Russian exercise perhaps but nevertheless equally vital to man's hopes of mastering space, is the United States' plan for sending aloft within the next few days the first spacecraft capable of being piloted and controlled by

As both nations move ever closer to their major goal of landing men on other planets their separate attainments take on all the ordinary aspects of an ordinary race just to see who makes it first.

Perhaps the average earthmen ma if he observes that though the Soviet Union and the United States have succeeded well as rivals how much further they would both have been ahead had they been partners in such an enterprise.

Phyllis Was a Lady

IN TODAY'S WORLD of blue-jeaned girls and longhaired boys, of rude words scribbled on public washroom walls by both sexes, gallantry seems but a forgotten word and courtliness an outworn pastime. And perhaps nothing quite so dramatically underlines the approaching demise of that once-gracious era as the sad story of the Silver Lady.

Also known to her more intimate friends as Phyllis, she once was one of the most elegant ladies in the world's high society, the epitome of good taste and the envy of all who saw her.

But, alas, the Silver Lady will no longer be allowed to remain as she was-except at home. If she travels abroad she must undergo a most vital change and all because of the laws of France, Switzerland and Belgium which say that she-as the winged mascot which adorns the radiator of every Rolls Royce-is nothing but a "dangerous protubcrance" who might injure anybody with whom she comes in contact.

Not altogether lacking in chivalry the Continental lawmakers suggested that the Silver Lady be made of rubber instead of the bronzed metal and silver from which her graceful form has been fabricated over the past half-century.

'Rubber!" said the outraged craftsmen of Britain's most famous car. "We cannot deface even two

inches of our car with an emblem so mundane." But, sad to relate, after months of arguments and threats the craftsmen capitulated. From now on all Rolls Royce automobiles exported to Europe will be equipped with a Phyllis made of rubber camouflaged with chromium. And though she has been forced to bow to the times her champions claim that at least she will now be able to bend to any emergency.

Furthermore she will retain the name "Silver there being apparently no truth in the report that she will henceforth be known as the "Chromium Cat,"

Well, that's the way the mascot bounces. . .

THE most sensible article on Viet Nam to have appeared recently was a short editorial in the Financial Post which points out that Viet Nam, like Korea, is divided, not because of the will of their people, but as the result of a saw-off between rival power blocs, and that if the peoples had their way reunification would probably take place. Other points which should be

Parliaments Doing Less Law-Making

In the last 50 years Parliament has become less and less \$27,725 to the B.C. Christmas important in law-making, David Trueman of Columbia University said at the joint convention of the Western Political Science Association and the Pacific Northwest Political Science Association in the Empress Hotel Friday.

He said the responsibility for formulating legislation is shifting more and more to bureaucracy.

"The development of European institutions is significantly non-parliamentary. E. S. Efrat of the University

The world's toughest beer-critics are Englishmen. How would they like Canada's Gold Keg Beer? There's only one way to find out:

Operation Gold Keg!

Gold Keg Beer has become remarkably popular in B.C., and we should be happy about it.

But, being human, we've always wondered how it would stand up in a British pub, crowded with beerdrinking Englishmen.

So we airlifted a cargo of Gold keg to England, and we're going to find out once and for all.

We're going to test it on the world's toughest critics. Englishmen. Will they like Gold Keg's deep, mellow, good flavour?

A GENERAL MOTORS VALUE

Beaumont Sport Deluxe Coupe

'65 Beaumont is a genuine, honest-to-goodness low-price car (It costs much, much less than its luxurious looks suggest)

'65 Beaumont is sized right in the middle between big and little (It'll fit your garage and park with ease)

'65 Beaumont is beautifully styled and luxuriously appointed (Just look. Now you see why most people think it's higher priced)

'65 Beaumont is made by General Motors (So you know it's packed with all kinds of value)

'65 Beaumont is sold by your Beaumont-Pontiac-Buick dealer (He's a good reliable man to do business with)

'65 Beaumont is a very remarkable car indeed . . . big enough inside to take mom, dad and a gaggle of small fry . . . yet small enough to shoehorn into the tightest parking spot. It has the kind of headturning beauty that gathers a crowd, yet it's responsive and agile as a hard-muscled sports car. You can pack it with exactly the power you like for your kind of driving. Pick the 120 hp Six , . . it'll give you outstanding economy, without being the slightest bit stingy on performance. And it's just one of 5 Beaumont engines available. Biggest being the 300 hp V8, giving you all the skedaddle you could ever wish to put your toe to. One more thing. Beaumont has a wide range of body styles. There are 12 models in 4 series . . . including 3 completely different convertibles. All of which proves quite conclusively that '65 Beaumont would make a remarkably good choice for your next automobile.

Dr. Sandmel detects "no originality" in the ethical teachings of Jesus.

Refreshments and a brief fire-side meeting will be provided after evening service.

"They range from the commonplaces of Jewish teaching through a sporadic flash of insight which other Jewish teach ers also achieved."

Dr. Sandmel acknowledges in ne passage that his appraisal may not quite do justice to Jesus' impact on history.

"His career must have been exceedingly singular," he con-cedes, "for his followers to say that he had been resurrected."

Strings Thrill A Rapt 400

Mary Vandenberg, Grade 5, watches entranced as quartet plays for children of North Ward school

By PATRICK O'NEILL

Chamber music by four Victoria artists Friday thrilled an audience of 400 elementary school children.

Students at North Ward elementary achool sat in a circle around four musicians from Victoria symphony, and listened with rapt attention to the selection of string

"I was surprised at the way the two-hour concert held the children's attention, it was beautifully done." said principal Richard James.

The four artists played from 1:30 to 3:30 p.m., with one concert for children, Grades 1 to 3, another for Grades

The artists were Jean Anger, first violin; Sam Spinak

first viola; Mrs. Spinak, second violin; and Hans Siegrist,

The string quartet set up instruments in the centre of the auditorium, and children sat on the floor around the musicians.

The artists began each concert by explaining to the children the use of each instrument, its individual function, and its place in the quartet.

The instruments were then demonstrated with the playing of a group of pieces exactly suited to the listen-

ing enjoyment of the youngsters. The group played Divertimento by Mozart, Drink to Me Only With Thine Eyes, and The Mill.

Mr. Anger's violin was featured on Haydn's Serenade; a Russian dance was a viola solo; the Swan featured the

Seagulls Inspired Woman to Build Plane

SENNEN, England (CP) - A the claim. dawn of the air age.

The siender, 86-year-old Mrs. Bland, believed to be the first woman to build and fly her own plane, greeted with reserve a Canadian reporter who came to ask her about that adventure so long ago

"It's like being resurrected from the dead," she said, and suddenly the years slipped away from the lined old face and she laughed the spontaneous laugh of a carefree young woman

It was in 1910 that Lilian Bland, inspired by her observation of black seagulls riding the turbulent air currents over Scot-land's Western Isles, fashioned a gull-winged craft to fulfil her dream of emulating the great

That was only seven years after history's first powered heavier - than - air hop by the Wright brothers at Kitty Hawk, and one year after J. A. D. McCurdy's famed Canadian flight at Baddeck, N.S.

In Lilian Bland's little-remembered epic, she made several Photo; short hops in her flimsy plane, whimsically dubbed the Mayfly.

But Lilian realized the Mayat Carmoney, near Belfast, be-fly for her first flight, which fly couldn't take an engine

SOUTH ▲ \$ 0 10 7 3 ♥ 9 6 2 A 1094 The bidding: Pass Pana 4 N.T. timistic bidding. In nor-Pana 3 Pass mal circums tances. South would not go beyond four spades, since Opening lead: Heart eight North's raise to two spades is a limited bid that suggests North can scarcely have enough high cards O

to make slam a good bet. At six spades, Harrison-Gray won the heart opening O and had to look hard for a line of play that held a reasonable prospect of success. He decided that lack of entries O to dummy would prevent him from establishing a long O diamond by ruffing three rounds of the suit, so the most O 64 promising plan was to cash three top clubs, dumping a O heart from dummy.

When declarer led his fourth club and West played of the jack, declarer realized it was futile to rulf small in O dummy and equally wrong to ruff with the trump king. O Instead of ruffing, South threw another heart from the O MOS MALE PUREBRED AIRE table, leaving the defenders stymied, Later, declarer O ruffed two hearts in dummy, using diamond ruffs as O entries to his hand.

Garden Notes

Much Too Drastic

By M. V. CHESNUT, FRHS

ROSE PRUNING (K.L.W., Oak Bay) Your friend's advice*to prune your rose bushes to within six inches of the ground is much too drastic, and in any case, rose pruning isn't as simple as all that, Floribundas are pruned differently from hybrid teas; old bushes are pruned differently to newly-planted ones, and husky, vig orous plants are pruned much more lightly than the weak, slow growers

With 15 roses to prune, I think would pay you to attend one of the free rose-pruning demonstrations arranged by the Victoria Horticultural Society. One of these is taking place at 2 o'clock this afternoon in Windsor Park, Oak Bay, and another next Saturday in Memorial Park Esquimalt. I think you will get the idea much more clearly from one of these visual demonstrations than I could possibly explain in print.

* * * ROSE SEEDS (J.M., Victoria) Rose seeds, as with the seeds of most berried shrubs, are often slow and erratic in germination. Hips should not be picked until fully reddened and dead ripe, with the sepals withered

hips and sown immediately normally come up the second spring after sowing.

Considerable experimental work has been done to break dormancy and speed up germination. Acids chemicals and scarifying don't seem to help much, but by juggling temperatures; the seeds can be persuaded to germinate soon after sowing

Mix the newly-harvested seeds with damp vermiculite and store in warm place for two months. ideally around 75 to 80 degrees. Then transfer, still in a moist storage medium, to the food compartment of your refrigerator -- not the freezerfor another two months. Then sow in the normal way in a mixture of sand and peat moss.

With purchased seeds of the miniature houselant rose, the conditioning is a little different. Open the seed packet, and with an eye-dropper put in three drops of water. Seal the packet with scotch tape and put in the refrigerator for three days. Then three days at room temperature. three more days in the cold, then Nanaimo) - The regime you have given your Christmas Cactus is correct in every respect but one. It is correct to put the plant outdoors all summer, morning sun only; to keep it well fed and watered through the summer, and to rest it for six weeks in the fall. The point where you went wrong was allowing the plant to remain in a room where the electric

lights are turned on through the

evening hours. Like the Poinsettia, the Christmas Cactus is a short-day plant; that is, it receives the signal to-start blooming by the gradually shortening hours of daylight in the fall. By exposing the plant to artificial light in the evening. you have lengthened the day to approximately midsummer length and so confused the plant so it doesn't know when to bloom! This is probably the most common cause of non-Christmas Cactus

Victor Mature Returning To Film Career

HOLLYWOOD (NANA)-It is good news that Victor Mature is returning to his acting career - in After The Fox with Peter Sellers and Britt Ekland. He hasn't been near Hollywood for five years, and hasn't worked here for 10-since Violent Saturday in 1955. We all believed he had retired for good to his ranch in Sante Fe with his English wife, Joy. His friends, his agents and the columnists had urged him to come back and all would be forgiven. Colorful movie actors are scarce. And Vie didn't need the money. To no avail. But "I simply could not resist this role," he called to tell me. "I play a movie star, I wear flashy clothes and live dangerously.

Years ago, Vic crashed into fame on Broadway playing a movie star in a dazzling white polo outfit in Lady In The Dark. The star, Gertrude Lawrence took one look at him and exclaimed "What a beautiful hunk of man." blasted Vic into orbit. He has always been a favorite with reporters and photographers because of his escapades and weird costumes which always made cood copy.

trom London arrived last Saturday at his Rancho Sante Fe home. Vic greeted then in a Sherlock Holmes suit, with Santa Claus, scarecrow and other costumes in reserve. It would be interesting to find out what she thinks of Leunard Slater's interesting biography of her father, titled, Aly. The dashing prince adored his only daughter.

OTTAWA (UPI) — The Commons Friday gave virtually unanimous support to the amountement by Prime Minister Pearson that the government had approved a \$10,000,000 grant to the Canada Council, as ,"a, temporary measure of assintance" to enable it to meet its "minimum foreseeable requirements."

Commons Reform

Parties Reject Changes

Offawa (CP)— The Commons failed to agree Friday on proposals to update its ancient-rules and instructed the special procedure committee to go back to the drawing board.

II. A. Olson (SC — Medicine Hat) said the committee will meet again next week in an effort to produce recommendations that will get wider support in the Commons.

The government and official opposition parties have come out squarely behind parliamentary reforms—providing most changes improve their respective roles in the Commons.

Both Prime Minister Pearson and Opposition Leader Diefenbaker have backed recommendations to promote parliamentary efficiency, but under certain conditions.

The Opposition leader told the Commons Friday that any changes must not increase the power of the cubinet.

Rembrandt Brings \$2,394,000

LONDON (Reutera) — A Los Angeles foundation paid £798,000 (\$2.394,000) Friday for a Remhrandt portrait in a dramatic bidding duel after it had already been sold to a London gallery.

The Dutch master's portrait of his son Titus—sold 150 years ago for 15 cents—had already been sold to the Marlborough Gallery for £770,000 (\$2,210,000) but auctioneer Peter Chance found himself in the centre of a heated disagreement among bidders and reopened the sale. The picture was then sold to

The picture was then sold to the Los Angeles Norton Simon Foundation for a pice that fell only £23,000 (\$69,000) short of the world record for a painting at auction.

The portrait of Titus, together with a Velasquez portrait of a fester sold for £178,500, was among five pictures from Sir Foundation for a price that fell Friday for a total £1,522,100.

The world record auction price for a single picture, £821,000, was set at the New York sale in 1961 of another Rembrandt, Aristotle Contemplating the Bust of Homer.

North Named President

Nick North was elected president of Victoria Visitors Bureau at its annual meeting in city hall Thursday. He succeeds Conway Par-

Rock Out of Place Can Kill

Duncan Speaker Advises Beach Prowlers

By KLAUS MUENTER

DUNCAN - Anyone who noves a rock on a beach could become a killer if he doesn't put it back in exactly the same

So said Dr. Linwood Smith, an assistant biology professor

at the University of Victoria, during a talk this week to the Cowichan Valley Natural History Society.

Dr. Smith said everyone who explores foreshore should be careful to disturb beaches as little as possible.

For instance, when a rock is moved to examine what may he underneath, care should be taken to replace it, since the many varieties of small marine life have different and critical requirements involv-

ing light, shade and heat.

Dr. Smith said clamdiggers should fill in the holes because piled-up sand can smother

other clams quickly. * * *

He said many of the more accessible beaches in the

states of Washington and Ore-

dered more or less barren of marine and amphibious life. The reason: so many people were ignorant of the needs of such animals.

Space Aces Back

MOSCOW (AP) - Two Soviet cosmonauts returned safely to earth inside their spaceship Friday after proving man can leave an orbiting satellite, float in space and perhaps some day build space stations for interplanetary travel.

Both were reported well.

A delay of nearly five hours announcing their landing after 26 hours aloft and an unusual site for returning the sat-ellite to earth cast the only over their historie flight. A West German obser vatory detected possible landing trouble from radio signals. But official Soviet announce ments gave no hint of trouble

LONDON (AP)-Russia disclosed today that the Soviet Vonkhod II space ship was enveloped in flames during its re-entry through the dense lavers of the earth's atmoaphere.

The Soviet news agency Tasa said today that radio communication was interrupted temporarily as the outside antennae burned away
